Address: 443/A, Himbuttana, Raddolugama, Sri Lanka

Profile

Computer Science and Engineering graduate from the University of Moratuwa with First Class Honours, specializing in Data Science and Artificial Intelligence. Experienced in developing machine learning and Generative AI solutions through industry and research projects, with interests in knowledge-based AI, LLMs, and human-centered AI systems.

Education

B.Sc. Eng. (Hons), Computer Science and Engineering

Specializing in Data Science.

University of Moratuwa, Sri Lanka

2022–2026

First Class Honours

GCE Advanced Level Examination – Physical Science Stream (2020)

De Mazenod College, Kandana

Combined Mathematics – A

Chemistry – A

Physics – A

Island Rank – 427

Ave Maria Convent, Negombo

2007–2018

Technical Skills

Programming Languages: Python, Java, C++, RPAL, VHDL.

Database: MySQL, MongoDB.

Web Development: HTML, CSS, ReactJS.

Tools: Git, VSCode.

Operating Systems: Windows, Linux.

Machine Learning: Scikit-Learn, NumPy, Pandas, TensorFlow.

Experience

Generative AI Engineer

Arcadea Group, Toronto, Ontario (Remote)

July 2026 – Present

- Building production-ready Generative AI applications using LLMs, AI agents, RAG pipelines, vector databases, and knowledge graph technologies to solve real-world enterprise challenges.

AI Engineer Intern

Arcadea Group, Toronto, Ontario (Remote)

December 2025 – June 2026

Teaching Assistant

University of Moratuwa – Department of Computer Science and Engineering

July 2025 – December 2025

Data Science Intern

Octave (The Advanced Analytic Division of John Keells Holdings)

December 2024 – June 2025

- Contributed to OCTAVE's flagship churn prediction and campaign optimization use case for Keells Supermarkets, building machine learning models, analyzing drift and retention, and driving actionable insights for marketing teams.
- Served as the Head of Interns, coordinating peer progress, facilitating collaboration across teams, and supporting intern engagement with senior data scientists and project leads.

Projects

Framework for Evaluating the Contextual Understanding of LLMs using Knowledge Graphs

Designed a knowledge graph-based framework for evaluating the contextual understanding of Large Language Models (LLMs). Developed a modular pipeline for entity linking and relation extraction to convert LLM-generated text into structured knowledge graphs, followed by triplet-based comparison and semantic analysis to assess reasoning consistency and contextual understanding.

Technologies used: Python, Knowledge Graphs, LLMs, Natural Language Processing.

Publication: Global South in Machine Learning (GSML) @ ICML 2026; received the Best Undergraduate Poster Award.

Solar Energy Forecasting Web Application

Developed a dashboard for solar energy generation forecasting using PatchTST and neural network models for time-series analysis.

Technologies used: ReactJS, MongoDB, Django, Python, Power BI, TensorFlow, Scikit-Learn.

ParkEase

Developed a smart parking management system using OpenCV for real-time vehicle detection and parking-slot availability monitoring. Contributed to image processing, system design, and research into cost-efficient camera-based parking solutions.

PDF Chat App

Developed a PDF-based question-answering application using OpenAI, enabling users to upload documents and ask questions directly related to their content.

Technologies used: LangChain, Python.

HR Management System (HRMastry)

Developed a database-driven HR management system for managing employees, managers, and administrative operations. Contributed primarily to the frontend and database development.

Technologies used: ReactJS, MySQL, NodeJS.

RPAL Interpreter

Developed an interpreter for the functional programming language RPAL, including a lexical analyzer, parser, and CSE machine. Implemented the scanner and supported abstract syntax tree construction, standardization, and program evaluation.

Technologies used: Java.

Quick Care Mobile App

Developed a mobile application providing first-aid guidance and emergency assistance. Contributed primarily to the frontend development.

Technologies used: ReactJS, NodeJS.

Publications

Evaluating the Contextual Understanding of LLMs using Knowledge Graphs

Developed a knowledge graph-based framework for evaluating the contextual understanding of Large Language Models (LLMs), providing a structured approach for assessing semantic relationships and reasoning consistency beyond conventional evaluation metrics.

Venue: Global South in Machine Learning (GSML) @ ICML 2026.

Recognition: Best Undergraduate Poster Award; Runner-up in the 3-Minute Presentation Competition.

Publication: Available on Resume Website.

Competitions

- **Brainstorm'24** – Finalist (Top 10).
 - **Idealize'24** – Finalist.
 - **Robots for Sri Lankans Robotic Challenge (SLRC)** – Finalist (Top 5).
 - **Home Credit – Credit Risk Model Stability – Kaggle Competition** – Ranked 280th.
-

University Involvement

- Secretary of the Intelligent Transportation Systems Society of IEEE Student Branch, University of Moratuwa.
 - AIESEC Member – Worked as an IR panelist in Colombo South.
 - Member of CSM (Catholic Students' Movement).
 - Member of the Dancing Society.
 - Bot Talk Webinar Series – Member of the organizing committee and moderator of the sessions, an IEEE project.
 - Member of the Academic Excellence Committee in Mora Extreme 8.0.
 - Member of the Delegate Handling Committee in SLIoT Challenge 2024.
-

Courses and Certifications

- Machine Learning Specialization – DeepLearning.AI and Stanford University, Coursera.
 - Supervised Machine Learning: Regression and Classification.
 - Advanced Learning Algorithms.
 - AWS Academy Graduate – AWS Academy Machine Learning Foundations.
 - Introduction to Machine Learning – Kaggle.
 - Intermediate Machine Learning – Kaggle.
-

Others

- Accomplished dancer and member of the dancing troop at Ave Maria Convent.
- Completed Trinity College London Speech and Drama examinations.
- Public speaker with experience in speech competitions.
- Completed music examinations through the Institute of Western Music and Speech.
- Prefect at Ave Maria Convent, Negombo.

Skills

Public Speaking
Communication Skills
Teamwork
Quick Learner
Good Interpersonal Skills
Presentation Skills

Languages

Sinhala (Native); English (C2); German (A1 Reading)
