Summary

I am a Generative AI Engineer passionate about data science, machine learning, and building intelligent systems that solve real-world problems. I focus on developing data-driven solutions and applying modern AI techniques to extract meaningful insights and improve decision-making. I enjoy working at the intersection of research and engineering, and I am constantly exploring new advancements in AI to build impactful solutions..

Education

University of Moratuwa

BSc Eng (Hons), Data Science and Engineering — Current GPA: 3.71

2022 – 2026

Sri Lanka

De Mazenod College, Kandana

GCE Advanced Level – Physical Science Stream: 3 A's — District Rank: 28 — Island Rank: 427

2018 – 2020

Ave Maria Convent, Negombo

GCE Ordinary Level Examination (2017): 9 A's

2007 – 2018

Work Experience

Generative AI Engineer

Arcadea Group

Apr 2026 – Present

Toronto, Ontario (Remote, Full-time)

- Working on applied AI solutions, model-driven workflows, and automation for production software products

Generative AI Engineer Intern

Arcadea Group

Dec 2025 – Apr 2026

Toronto, Ontario (Remote)

- Completed a Generative AI engineering internship before transitioning into a full-time role

Teaching Assistant

University of Moratuwa, Department of Computer Science and Engineering

Jul 2025 – Dec 2025

Sri Lanka

- Supported undergraduate teaching activities, student guidance, and course-related academic work

Data Science Intern

Octave (The Advanced Analytics Division of John Keells Holdings)

Dec 2024 – Jun 2025

Sri Lanka

- Built and evaluated machine learning models for churn prediction, campaign optimization, drift analysis, and customer retention insights
- Served as Head of Interns, coordinating peer progress and collaboration with senior data scientists and project leads

Projects and Research

LLM Understanding Evaluation with Knowledge Graphs

- Designed an entity-linking and relation-extraction pipeline to convert LLM outputs into knowledge graphs for triplet comparison and semantic consistency analysis

Solar Energy Forecasting Web App | *ReactJS, Django, MongoDB, Python, TensorFlow, Scikit-Learn*

- Built a forecasting dashboard using PatchTST and neural network models for solar-energy time-series analysis

ParkEase | *OpenCV, Python*

- Developed OpenCV-based vehicle detection and parking-slot availability monitoring for a camera-based smart parking system

PDF Chat App | *Langchain, Python*

- Created a PDF question-answering app with document upload, AI-based text extraction, and interactive querying

Additional Projects | *ReactJS, NodeJS, MySQL, Java*

- Built HRMastry HR management system, Quick Care first-aid mobile app, and an RPAL interpreter with lexical analysis, parsing, and CSE-machine evaluation

Papers

Evaluating the Contextual Understanding of LLMs using Knowledge Graphs

June 2026

- Accepted as a Short paper at the International Conference on Machine Learning Global South ML, Seoul, Korea

Technical Skills

Languages: Python, Java, C++, RPAL, VHDL

ML/Data: Scikit-Learn, NumPy, Pandas, TensorFlow

Databases: MySQL, MongoDB

Web/Tools: ReactJS, HTML, CSS, Git, VS Code

OS: Windows, Linux

University Involvement

Secretary, Intelligent Transportation Systems Society, IEEE SB UoM

AISEEC Member – IR Panelist, Colombo South

Bot Talk Webinar Series – Organizing Committee Member and Moderator

Committee Member – Mora Extreme 8.0, SLIoT Challenge 2024

Member – CSM and Dancing Society

Courses and Certifications

Machine Learning Specialization – DeepLearning.AI, Stanford University (Coursera)

AWS Academy Graduate – Machine Learning Foundations

Kaggle – Introduction to Machine Learning; Intermediate Machine Learning

Skills & Languages

Professional: Leadership, presentation, public speaking, teamwork, communication

Languages: Sinhala, English

Competitions

Brainstorm '24 – Finalist (Top 10)

Idealize '24 – Finalist

SLRC Robotic Challenge – Finalist (Top 5)

Home Credit Kaggle Competition – Ranked 280th
